ICELAND
The Land of Fire and Ice
If you enjoy the outdoors, then Iceland is the perfect place for you!

Northern Lights
Try to visit Iceland between September and April, because that's when you can witness the aurora borealis or the Northern Lights. They appear as dancing lights in the sky in lots of colours, especially purple, red, pink, orange and blue. Travel to north Iceland and you will definitely catch these lights. To make your holiday even more exciting go on a boat trip from Akureyri. Away from any lights on the mainland, you'll have the opportunity to see this magnificent phenomenon in all its beauty. Be adventurous and go hunting for the Northern Lights!

The Blue Lagoon
The Blue Lagoon is located in the southwest of Iceland, just thirty minutes from the capital city, Reykjavik. Despite the country's freezing cold climate, this large outdoor spa has temperatures of around 39°C. It's a breathtaking place, surrounded by black lava and dark green moss. Be brave and dive into the milky-blue, warm waters. You may even be lucky and find celebrities because they visit it for its healing powers! So don't hesitate to go to one of Iceland's most popular sights.

Skaftafell National Park
For the perfect trekking holiday, visit Skaftafell National Park in south Iceland. It's one of the must-see destinations in Iceland. Beautiful mountains, forests, active volcanoes and rivers make it an excellent choice for those who want to hike, go mountain climbing or just explore nature.
